2. Landsdowne St
3. Calvert St
4. Almada St
5. Hickory St
6. Brent Ct
7. Tampanok St
8. Wildwood St
9. Wildwood Ct

This map was produced for reference purposes during the deliberations of the Open Space Task Force, during winter 2005. Displayed features were selected for inclusion and analysis in the Task Force's work.

Data Sources:
Contiguous forest blocks were mapped by the GIS Manager and represent within a 300 foot buffer of State roads and a 100 foot buffer of local roads. Contiguous areas are also setback from buildings or paved parking/driveway areas by at least 30 feet. setback distances were interpreted from aerial photos. Additional areas of cleared land, including pits or significant paved areas were also extracted.

Base features, including watershed boundaries were mapped by VarGIS LLC for the Town based on a spring, 2003 flyover. Regular updates occur as new projects are approved by the local Planning Board.

- Identified Green Infrastructure
- Areas protected through Fee Ownership, Deed or Easement Restrictions
