

Informational Session: Londonderry Community Choice Aggregation (CCA)

March 7, 2026

Presented by:

Nick Shostak, CCA Team Lead

Bart Fromuth, CEO

Howard Plante, VP of Procurement

Freedom Energy Logistics

What is CCA?

- Community Choice Aggregation (CCA) is a program that allows local governments to combine the electricity demand of their residents and small businesses to create a large purchasing pool. The goals are to achieve electricity savings and budget certainty.
- The Londonderry Town Council authorized the CCA program after public hearings and formally approving the final aggregation plan.
- Over 50 active aggregations in NH and 1400+ nationwide.

Why CCA Matters

- Leverages collective purchasing power to secure lower energy rates.
- Provides savings and long-term budget stability.
- Eversource's rates change every 6 months, causing volatility.

Londonderry CCA Details

- No environmental impact; only standard rate offered.
- Rates:
 - Londonderry CCA: \$0.09573/kWh (7 months).
 - Eversource's Rate: \$0.11303/kWh (locked until August).
- Initial Savings:
 - 15% (Initial meaning we only know Londonderry CCA rate vs. Eversource rate for first four months.)
- Estimated Community Savings:
 - Assuming full participation (112,000,000 kWh), Londonderry would be guaranteed to save ~\$646,000 over the first four months or ~\$161,000/month.

Eligibility

- Only Eversource default service customers will be enrolled unless they opt out.
 - Exception: Net Metered customers should not have received an opt out. Net Metered customers are better off with Eversource, in order to be paid for excess production.
 - Exception: Third-party supply customers are not impacted and would have to opt-in should they choose.
- Budget billing and Electric Assistance Program (EAP) participants remain unaffected.

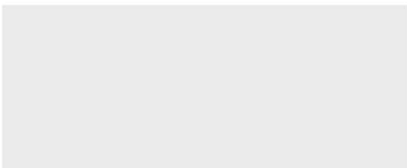

Opt Out Options

- Residents can opt out at *anytime* before or after their April meter read.
- Three Methods to Opt Out:
 1. **Return opt-out card.**

city supply program, **Londonderry Community Choice Aggregation (CCA)**, to help reduce electricity costs and offer budget certainty to the ratepayers of the town. The Londonderry rates more stable, competitive rates, and an alternative to **Eversource Default Service**.

How the Program Works

Town of Londonderry selects a supplier (First Point Power)
→ Utility (Eversource) continues delivery & billing
→ You (Resident/Business) are enrolled by default unless you opt-out

- Eligible consumers include residential and business customers currently receiving default service from Eversource.
- Customers currently under contract with a third-party competitive supplier will not be automatically enrolled.
- Participation is voluntary; you may opt-out at any time with no penalty and opt-in later with no entry fee.
